## About MV Elysse

Owned and operated by Felicia Marine Services, the MV Elysse is an 11m workboat built in 2019. The vessel is certified under MCA Cat 2, offering high-speed transit speeds of up to 24 knots with an economical fuel consumption rate of 60 litres per hour at cruising speed.

The vessel is equipped with a 10 KVA Beta Marine Generator, a 3000w inverter, an 800mm x 800mm Moon Pool with a frame and pole for transducer mounting, and a fully depth-adjustable hydraulic A-frame.

MV Elysse features essential amenities such as hot and cold water, a toilet, a small galley, and two survey desks with seating, with a comfortable climate thanks to the Eberspacher accommodation heating system.

With three berths, TV, DVD player, and 4G wireless internet access, the crew can rest in comfort.

## Specifications
